PROFESSIONAL SUMMARY

Passionate Java Developer with strong knowledge of Java and Data Structures & Algorithms, along with a problem-solving mindset and logical thinking ability. Dedicated to continuous learning and writing efficient, optimized code. Seeking an entry-level software developer role to contribute to innovative and scalable solutions while growing professionally in the software industry.

TECHNICAL SKILLS

Language - Core java , Java , Basic Python , C / C++.

DSA - Strong Linear Data Structure And Basic Non-Linear Data Structure.

Web Tech - HTML , CSS , JavaScript , Bootstrap , Tailwind.

Backend - Spring , Spring Boot , APIs , Hibernate , Authentication & Authorization , Microservices.

Architecture - Layered Architecture , Client-Server Architecture , MVC Architecture.

Database - Mysql , Mysql Workbench , DBMS.

Tools - Maven , Git , GitHub , Postman , VS code , Swagger.

Core Concept - Object-Oriented Programming (OOPs), Collections, Exception Handling, Data Structures & Algorithms, Computer Organization & Architecture (COA), Operating Systems (OS), Computer Networks (CN).

WORK EXPERIENCE

Completed professional training at The Prime Step with hands-on experience in real-world application development projects in a collaborative environment.

BANK MANAGMENT SYSTEM USING SPRING BOOT

- Developed a secure and scalable Bank Management System using Spring Boot, MySQL, JPA, and REST APIs.
- Implemented user authentication and authorization using Spring Security and JWT-based login system.
- Designed and developed RESTful APIs for account creation, balance inquiry, deposit, withdrawal, and fund transfer.
- Integrated MySQL database with Spring Data JPA for efficient data storage and management.
- Implemented email notification services for account registration, transaction updates, and password recovery.
- Configured CORS, layered architecture, and reusable service components for maintainable backend development.
- Performed CRUD operations with optimized database queries and clean API response structures.

SWIGGY - FOOD ORDERING PLATFORM USING SPRING BOOT

- Developed a full-stack Food Ordering App inspired by Swiggy using Spring Boot, React, MySQL, and REST APIs.
- Built responsive UI for food browsing, cart, and restaurant listings.
- Implemented JWT authentication and Spring Security for secure login/signup.
- Created REST APIs for food, cart, orders, and wishlist management.
- Integrated MySQL with JPA/Hibernate for database operations.
- Added search, filter, and category-based food listing features.
- Implemented exception handling, validation, and CORS configuration.

WEATHER APP USING SPRING BOOT AND OPEN AI (API)

- Developed a responsive Weather Application using HTML, CSS, JavaScript, and Weather API integration.
 - Implemented real-time weather forecasting with temperature, humidity, wind speed, and location details.
 - Added city-based weather search functionality with dynamic API data fetching.
 - Designed a clean and user-friendly interface with responsive layouts for multiple devices.
 - Integrated error handling and API response management for accurate weather updates.
-

EDUCATION

Diploma (Computer Science) RGPV University | 2021-2024

Shri Vaishnav Polytechnic College Indore

CGPA - 7.75

Bachelor of Technology (B.TECH) RGPV University | 2024-2027

Swami Vivekanand College of Engineering Indore

CGPA - 6.94
